

FLAT ROCK FIRE WORKSHOP

SEPTEMBER 13-14, 2019

SCIENCE SYMPOSIUM
Friday, 1:00-4:30

PANEL DISCUSSION
Friday, 7:00-8:30

FIELD TRIP
Saturday, 8:30-3:30

In July 2018, over 500 acres of jack pine forest burned at Flat Rock State Park near Altona, New York. Why did this happen? Would we be prepared if it happened again? Join us as we revisit the events of the 2018 wildfire for an exciting look at fire ecology and wildfire management.

Hosted by W. H. Miner
Agricultural Research Institute
586 Ridge Road
Chazy, New York
