A PORTION OF THE PROCEEDS SUPPORTS...

BAT CONSERVATION INTERNATIONAL

WHITE NOSE SYNDROME RESEARCH FUND

<http://www.batcon.org/>

NORTHERN LONG-EARED BAT

OUR LOCAL FOREST BAT POPULATION IS BEING DECIMATED TO NEAR EXTINCTION BY WHITE NOSE SYNDROME – AN IMPORTED DISEASE.

THE NORTHERN LONG-EARED BAT, ONCE COMMON IN MN FORESTS, IS NOW ON THE ENDANGERED SPECIES LIST.

BATS ARE MAJOR PREDATORS FOR FLYING INSECT PESTS THAT ATTACK OUR FORESTS AND US!

A FOREST TO TAP EVENT
GREAT FORESTS – GREAT WATER – GREAT BEER
