

INTRODUCTION TO WOMEN'S CHAINSAW SAFETY

SATURDAY, NOVEMBER 9, 2019, 8:00-4:00

MAINE YOUTH FISH AND GAME ASSOCIATION, MILFORD, ME

This one-day course will introduce women to the fundamentals of safe chainsaw use. We'll cover fundamental topics such as personal protective equipment (PPE), how to maintain a safe saw, starting the saw, and the mechanics of safe body posture. Participants will have a chance to cut tree cookies, and will watch a tree-felling demonstration. This **does not** prepare participants to buck up logs or cut down trees. This class is good preparation for more hands-on, two-day Women's Chainsaw Safety and Maintenance courses.

Cost: \$75. Scholarships are available through Women of the Maine Outdoors.

Please bring your own food and water for the day.
