FOREST STEWARDS GUILD - MEMBERSHIP AND POLICY GUIDELINES

Purpose of this Document:
This document guides the Organization in its interaction with the Membership, with the Membership and Policy Council (MPC), the Board of Directors (Board) and any other ad hoc or regular committees or working groups. These guidelines will be periodically reviewed by an ad hoc committee of Board and MPC members and updated as needed. Updated guidelines are submitted to the Membership for ratification.

I. Organization
The Forest Stewards Guild (the “Guild”)

II. Structure
An active membership is central to the organization. Professional and Retired Professional Members are eligible to vote in MPC representative elections, on Policy Statements, and on Guideline revisions.

A. The Board of Directors provides overall fiduciary and policy governance, and determines matters relating to the “policies, actions, and property of the Guild” (Bylaws, Article I). The Board refers matters relating to membership and policy statements to the MPC for consideration and takes timely action on MPC recommendations on such matters, including those that require a vote by the Membership for adoption (see Section XI below).

B. The MPC serves the Membership as elected representatives. The MPC develops and revises Policy Statements and other policy documents, works to support membership related projects and outreach, and assists with other Guild initiatives where needed. The MPC informs the Board with regular communications about its activities.

III. Statement of Mission and Principles

A. The Forest Stewards Guild promotes ecologically, economically, and socially responsible forestry, “excellent forestry,” as a means of sustaining the integrity of forest ecosystems and the human communities dependent upon them. The Guild provides training, policy analysis, and research to foster excellence in stewardship, to support practicing foresters and allied professionals, and to engage a broader community in the challenges of forest conservation and management.

B. The Guild’s professional members base their practice on the following principles:
   1. Human society benefits from responsible forest management that places the highest priority on the maintenance and enhancement of the entire forest ecosystem.
   2. The natural forest provides a model for sustainable resource management; therefore, responsible forest management emulates nature’s dynamic processes and minimizes impacts when harvesting trees and other products.
   3. The forest has value in its own right, independent of human intentions and needs.
   4. Human knowledge of forest ecosystems is limited. Responsible management that sustains the forest requires a humble approach and continuous learning.
5. The practice of forestry must be grounded in field observation and experience as well as in the biological sciences. This practical knowledge should be developed and shared with both traditional and non-traditional educational institutions and programs.

6. Our first duty is to forests and their future. When confronted with circumstances that threaten the integrity of the forest and conflict with the Mission and Principles of the Forest Stewards Guild, members must respond through education, advocacy, or where necessary, disassociation. Guild membership signifies a commitment to the highest forest stewardship ethic.

   a. A member’s annual dues have not been paid in full.
   b. A member’s actions are clearly not in accord with the Guild’s Mission and Principles.
   c. A member’s actions are clearly and consistently contrary to the General Duties and Responsibilities of Membership (Section IV.E above).
2. Membership is automatically terminated for non-payment of dues when at least 90 days have elapsed since the expiration of membership and the member’s dues have not been received AND the member has received a written notice stating that termination is pending for non-payment of dues. Any Guild Professional Member for whom dues are a financial hardship may request a waiver of membership dues for up to two years.
3. Termination of professional membership for reasons other than non-payment of dues can only be made by the MPC in response to valid petitions for termination as described in III.H.4.
4. A petition for termination of a Professional Member can only be proposed by one or more Professional Members in good standing. Petitions for termination must be submitted to the Chair of the Membership and Policy Council in writing and include sufficient detail of the reasons for termination and references to information sources or persons familiar with the circumstances to allow the MPC to reasonably assess the situation. 5. Within 60 days of having received a petition for termination, the MPC shall investigate and make a decision in response to the petition. At a minimum, the investigation shall include interviews with the petitioning member(s) and the member facing termination. The MPC may elect to interview any other directly affected or knowledgeable persons and the details of any such interview conducted in response to a petition may be considered confidential if the interviewee so elects. Following the investigation, the MPC will either approve the petition to terminate membership, deny the petition with no further action, or deny the petition while sending a formal letter of censure to the member subject to the petition.
6. Professional Members having received a formal letter of censure within the last 36 months may have their membership subsequently terminated by the MPC for continued actions not in accord with the Mission and Principles or the General Duties and Responsibilities of Membership. The MPC will exhibit reasonable diligence in evaluating such circumstances, however it may act subject to the approval process described in IV.H.(7.) without the need for another petition for termination or formal investigation.

7. MPC action in response to petitions for termination requires a 2/3 majority of MPC member votes during a properly announced meeting with a quorum of members present. Failure to achieve a 2/3 majority for any action in response to a petition for termination will result in denial of the petition. The chair or another representative of the MPC will notify both the petitioner and the member facing termination of the MPC’s action on the petition within 3 days.

XI. Policy Development

A. Categories
1. Broad Policy Statements
   a. Guild Policy Statements generally address broad issues with unrestricted time horizons and/or wide geographic relevance. Policy Statements require a formal vote of the Professional Membership. Policy Statements shall be consistent with and relevant to the Guild Mission and Principles, but may include opinions, positions, factual clarifications, and other points pertinent to the objective.
   b. Policy Statements will take the form of a formal document, written in a style that is appropriate to the subject matter and audience.
   c. State- or local-level Policy Statements may be developed by local chapters or coordinators, must refer to and be consistent with existing national level Policy Statements, and shall follow the approval process for Policy Statements outlined in section B, below.
2. Detailed Position Statements
   a. Position Statements are intended to respond to pressing issues, often within a narrow time window. The process of approving Position Statements should reflect the urgent nature of this need and avoid cumbersome review. Position statements generally address focused issues with restricted time frames and/or limited geographic relevance, are tiered to policy statements, and require review by the staff and Executive Committee of the Board. Because of the need for timely consideration, staff and the Board Executive Committee will have 3 days to complete this review from the date of delivery of the
Position Statement. The lack of a response within that time frame will be considered an affirmative review. Final approval is by vote of the MPC.
b. Position Statements may take any of a number of forms, including a formal document or a simple letter from the Executive Director or MPC Chair.
c. State- or local-level Position Statements may be developed by local chapters or coordinators, must be consistent with existing national level Policy or Position Statements, and require approval by Guild national headquarters staff and/or the Guild’s MPC.

B. Procedure
1. Any Professional Member may recommend the development of a Policy or Position statement to the MPC, either directly or through Guild Board members or staff.
2. The MPC (or a subcommittee thereof) may develop the first draft of a Policy or Position Statement, or, if it so desires, delegate the first draft to Guild staff, the policy working group, or, in the case of a Position statement, to local members on issues relevant or restricted to their locale.
3. If a Policy Statement is particularly contentious or complex, the MPC may organize a series of workshops or meetings with professionals within or outside the Guild to solicit broad perspectives, as part of the process of drafting the Policy Statement.
4. The MPC Chair will notify the Board when Policy Statements are slated for development or revision. Following the start of MPC work on a Policy Statement, the MPC Chair or designated liaison to the Board, will provide information about the policy work at the next scheduled Board meeting. This will ensure Board members have an opportunity to provide input on a given statement early in the development/review process.
5. In cases where the policy working group or staff develops the first draft, it may be reviewed and revised as necessary by the MPC in conjunction with staff. In cases where the MPC or staff develops the first draft of a Policy Statement, it may be sent to the policy working group for review and comment.
6. Policy Statements must receive initial approval by majority vote of the MPC. An MPC-approved Policy Statement will then be submitted to the Board for approval before scheduling a Membership vote. The Board must vote its approval of the Policy Statement, or if the Board disapproves, it will provide the MPC with a single document representing the Board’s position, and with a description of its concerns and recommendations. The MPC will consider the Board’s responses and revise the Policy Statement, as appropriate. After any changes, the revised Policy Statement will be resubmitted to the Board. Approval by the Board is required.
7. Final approval by the Professional Membership is through a simple majority of the votes cast.
8. The MPC may authorize changes to a Policy Statement after approval by voting for purposes of clarification and editorial clean-up. Substantive changes to an approved Policy Statement must be subjected to a new approval by the Board and a new vote of the Professional Membership.
9. Position Statements may be appealed by petition of one-third of the Professional Membership. In such cases the MPC and staff must conduct a vote of the Professional Members within one month after receipt of the petition. Affirmation or rejection of the Position Statement in question is based on a simple majority of submitted votes.
