

THE FOREST STEWARDS GUILD'S

# Appalachian Cove Virtual Series

*All webinars go from 12 - 1 EST*

## August 7: Ginseng Webinar

In this webinar we will discuss the effects of traditional logging practices of eastern hardwood forests on the survival, growth, and reproduction of wild American ginseng. We will be joined by Dr. Jim McGraw and Dr. Jennifer Chandler.

Approved for 1 CFE

## September 4: "Field" Tour

Join us on a pre-recorded virtual field tour of Tom's Run Preserve in West Virginia, lead by West Virginia Land Trust. Recording will be made available on this day.

## October 2: Invasive Webinar

Do you have problems with invasive plants in your forests? Join us for this interactive webinar to learn about techniques for managing invasives in coves from EcoForesters.

Waiting approval for 1 CFE

## November 6: Aquatic Biodiversity Webinar

More information to come.
