

Highlands-Cashiers
LAND TRUST
"Saving Special Places since 1909"

Zachary Tolbert House
1940 NC-107
Cashiers, NC

Friday, November 12
9 am - 4 pm

*The workshop includes a
mandatory 1.5 hour
orientation via Zoom the
evening before.*

COVID-19 precautions
will be in place. Visit
the HRI website to see
our guidelines.

Learn to protect your hemlocks!

Join the **Hemlock Restoration Initiative** in partnership with **Highlands-Cashiers Land Trust** and **Cashiers Historical Society** for a workshop to learn the fundamentals of treating hemlock trees to protect them from the invasive insect, hemlock woolly adelgid (HWA). Today maintaining your hemlocks' health is simpler and less expensive than ever before!

What does the workshop cover?

Participants will learn about a variety of methods to protect hemlocks through outdoor, hands-on practice and pre-recorded video presentations.

Topics covered will include:

- Assessing hemlock health
- Chemical application methods available to landowners
- The ecological importance of hemlocks and their place in urban and community forests
- The biology of HWA and other hemlock pests
- The specific details of chemical treatment
- The integration of biological, silvicultural, and other control methods
- When and how to seek professional tree care help

Registration required at

<https://savehemlocksn.org/cashiers-workshop/>

\$10 registration fee

NC Pesticide Applicator credits and ISA CEUs available
