

UA Guild Chapter Camping Trip at Bankhead National Forest September 23 – September 24

The goal of the trip is to inform students about how natural resources management intersects with aquatic biodiversity conservation. We will engage with USFS staff and others to learn about forest management at Bankhead NF, incorporating water quality concerns into timber sales, and aquatic biodiversity conservation in private forestry.

Agenda	
All times in CST	
Friday September 23, 2022
