This event is part of a nationwide series of 30-year celebratory events hosted by Guild members. Barrie Brusila is hosting this one near Warren, Maine, on land she and her family have stewarded for more than 35 years! The tour will include site visits and discussion about decades of selection harvesting in an oak-pine forest, invasives control work, wildlife habitat improvement projects, and a barn built with lumber from the land. It's another generous opportunity to gather with Guild members and supporters to learn from each other and nurture our unique and essential connections. It's always a valuable time at a Guild Gathering!
